Bahamasair

**BAHAMASAIR Boeing 737-2L9 Advanced**

As the government airline of the sprawling island nation off the Florida coast, Bahamasair was created in June of 1973 just prior to independence from Britain. UP replaced the former services of Out Island Airways and Flamingo Airlines, which in turn had previously replaced Bahamas Airways. Today with a fleet of four HS748s and four of the pictured 737s, UP serves 21 points in the island chain and international routes to South Caicos, Miami, Fort Lauderdale, West Palm Beach, Tampa, Orlando, Atlanta and Newark.
